Darya Abdullahzadeh
Software Engineer

Software Engineer who excels in contributing to a highly collaborative work environment. Designed and developed multiple applications integrated with APIs and databases deployed to Heroku. Fearless in embracing new technology and processes, solving the toughest client challenges, and prioritizing company success through collaborative learning and a growth mindset.

SKILLS

Languages - JavaScript, HTML, CSS, Sass, Mongo, Java, Python | **Database** - MongoDB **Libraries and Frameworks** - React, Express.js, NodeJS | **Other** - REST APIs, JSON, CRUD, AJAX, GitHub, Postman, VS Code, Intellij, Heroku, Debugging, UML, Wireframing, MS Excel | **Learning** - SQL | **Spoken Languages** - Kurdish (Native), French (Advanced)

SOFTWARE DEVELOPMENT PROJECTS

Instafake | MERN stack application utilizing MongoDB, Express, React, and Node.jsS
- Collaborated on a group project to create an instagram clone where users can follow one another and upload pictures.
- Oversaw backend development; built databases using MongoDB and implemented API routes with JavaScript.

TV Party | Full-Stack tech stack utilizing MongoDB, Express, React, and Node.js
- Created a blog where users can log tv shows they have watched and leave reviews.
- Utilized a full stack (MongoDB, Express, React, Node.js) to build a CRUD application in 2 weeks, with restful API routes

My Little Messenger | MERN Stack Application
- Created a messenger app that uses MongoDB, Express, Node and JavaScript to create a messaging application.
- Created application with a mobile-first approach and styled the application using Styled-Components and CSS with flexbox layouts.

PROFESSIONAL EXPERIENCE

HR Generalist, LanceSoft | Herndon, VA | Hybrid   **July 2022 - October 2022**
- Routinely onboarded new corporate team members, and conducted new hire inductions for 2-3 employees a month.
- Utilized expert conflict resolution skills and discreet communication to overhaul workplace culture by developing performance improvement plans, and implementing mentorship of team members for 3-4 team members weekly.
- Provided training and guidance to non-technical team members about how to use in-house database

Talent Acquisition Coordinator, Robert Half | Remote   **October 2021 - July 2022**
- Routinely partnered with 5-7 Talent Acquisition Partners to screen and coordinate interviews on over 20 job requisitions through Workday ATS, and routinely screened over 20 candidates for each job requisition on a weekly basis.

HR Expert, Target | Manassas, VA   **October 2016 - February 2021**
- Orchestrated three-day hiring event in 2018, which included screening 30-50 potential employees per day, and resulted in 50% of seasonal hiring goal met at the end
- Consistently maintained 100% completion rate for team training and testing for state health and safety regulations.

EDUCATION

GENERAL ASSEMBLY | REMOTE
Software Engineering Immersive   *July 2022 - February 2023*
Full-stack software engineering immersive student in an intensive, 24-week, 450+ hour program focused on product development fundamentals, application development, machine learning, object-oriented programming, MVC frameworks, database design, data structures, and team collaboration strategies. Worked on designing, developing, documenting, testing, and debugging backend application software. Developed a portfolio of individual and group projects.

Northern Virginia Community College | Annandale, VA
Associates of Arts in Liberal Arts   **May 2019**
